OFFICE COMMUNICATION

The reply received 12/22/06 has been entered, pursuant to the granting on 9/21/07 of the petition to revive the application. In this reply, applicant amended claims 1-4. No claims were added or deleted.

Since applicant has received an action on the merits for the originally presented invention, *i.e.*, a composition, this invention has been constructively elected by original presentation for prosecution on the merits. See the Office action mailed 12/23/04, page 3. Accordingly, claims 1-4 as currently drafted are directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

This amendment is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because they are drawn to a method of preparing polyunsaturated fatty acid-containing phosphatidylserine, *i.e.* a method of making the composition examined in the first Office action on the merits.

The general policy of the Office is not to permit the applicant to shift to claiming another invention after an election is once made **and action given** on the elected subject matter, in this case the composition comprising phosphatidylserine and phosphatidic acid. See MPEP § 819. The examiner clearly indicated that the product, and not any method, was being examined in the first Office action. Shifting to a method at this point in prosecution is not a matter of right.

Since the above-mentioned amendment appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the
